J. J. HARVEY,

Collector of Govt. Customs.

Calcutta, 13th January, 1843.

The Collector has no objection to pass Packages, which are intended for private use, and not for Sale whenever—provided that at the time they are applied for, satisfactory proof of their contents in the shape of Invoices, Bills, or Letters of Advice are produced. In the absence of these documents, owners should depute a person to be present at the opening of their Packages.

The Collector has nothing to do with the landing of Packages from Ships, nor with forwarding them to their owners or destinations.

## NOTICE

*Touching the Pilot Station for the River Hooghly during the S. W. Monsoon of the Year 1843.*

NOTICE is hereby given, that the same causes existing which during last S. W. Monsoon rendered necessary the removal of the Pilot Station from off Point Palmyras to a position 6 or 8 miles S. W. of the outer Floating Light, and in from 16 to 20 fathoms water, this latter Station will be continued during the next S. W. Monsoon, viz. from 15th March to the 15th September.

During the last S. W. Monsoon, no difficulty would appear to have been experienced by Vessels passing from False Point Light House to the New Station, nor can any be left, if common attention be paid to the lead and to the following Directions prepared by Captain Lloyd, late Officiating Marine Surveyor General, after a careful Survey of the ground between the two Points.

False Point Light House is in Latitude 20° 19½' N. and Longitude 86° 47' E., and that of the South Channel Buoy in Latitude 20° 59' N. and Longitude 85° 4' E., and bears from the former N. 61 E. true N. E. by E. ¼ E. by Compass distant 83 miles, and is laid in 12 fathoms.

A Bank of Soundings extends from off Point Palmyras, in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hooghly deposit which is sand and mud with shining specks,) is a gravelly substance composed of sand shells and small pebbles discharged from the "Kunka," and other Rivers, near Point Palmyras, the lighter material of which being carried further out, is deposited and forms what is called the Pilots' Ridge, which in crossing to the N. Wd. shows a little less water than on either side. In coming from seaward you shoal rather suddenly from 28 to 23 fathoms upon its Eastern Edge. It is composed of a shelly sand or minute gravel of a reddish or rusty brown colour.

The best guide therefore to enable a Vessel to direct her course from False Point to the

Vessels at the New Station, will be to run down the Edge of the Pilots' Ridge, which can readily be done by making the Light House and bringing it to bear about W. S. W. or S. W. by W. distant by computation from 10 to 15 miles then steering to the E. N. Ed. and having gradually increased the depth of water to 23 fathoms upon the Eastern Edge of the Ridge, regulate the course to keep between it and 27 fathoms, when by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels, (if the above limits are kept within) either by getting too far to Windward or falling to Leeward; for the Soundings increase so rapidly to seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it and 23 fathoms the same distance to the Westward of it.

" The Soundings to seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it."

Vessels approaching the Station during the day are required to shew the usual Signal for a Pilot and by night to give as early and as much warning as possible by firing Guns, burning Blue Lights and by exhibiting two Lights in a vertical position, where best seen, but Commanders are recommended to avoid as much as possible making the Station during the night. To mark the Station one of the Pilot Vessels will shew during the day a large St. George's Jack (white with red cross) at the Main Top Gallant Mast Head and a good Mast Head, Light during the night and will burn a Blue Light and a Maroon alternately every half hour and fire a Gun at 8 P. M. at midnight

" The Light Vessels are directed when another Vessel is approaching during the night, to shew a Light at the Staff and to mark the way they are riding. and at 4 A. M. Vessels approaching the Station and while there, as well as when approaching the Light, and Bury Station Vessels are

warned to be careful in avoiding collision by night or by day and in communicating with either of the above Vessels, either at anchor or heve too, when it is necessary to cross her, to pass under the Stern, several instances of serious damage having occurred during the S. W. Monsoon, whereby the outer Floating Light was more than once compelled to leave her Station for repairs to the great inconvenience and risk of Vessels entering and quitting the River.

A Vessel will be stationed off False Point Light House, keeping it according to circumstances W. by S. to N. W. by N., in from 10 to 15 fathoms water.

She will exhibit during the day, when Vessels are in sight, a large Danish Jack at the Main Top Gallant Mast Head (red with white cross) and during the night a good Mast Head Light in the same place and will burn a Blue Light every half hour.

This Vessel will have no Pilot on board and is only intended generally to furnish information touching the Course to the New Station, but particularly to do so to Vessels which may be in ignorance of the position of the New Station.

NOTICE.

The following Directions for Vessels entering the Moulmein River, prepared by Lieut. W. Fell, I. N., are published for general information.

By order of the Marine Board,

C. B. GREENLAW,

Secretary.

Fort William, }  
The 12th Dec., 1842. }

DIRECTIONS

For Vessels entering the Moulmein River.

A Vessel coming from the southward on sighting the fair way Buoy, which is a Black Buoy with two white rings, painted on the upper part of it, and placed in 4½ fathoms water, on a patch of broken ground, of about 250 yards in extent, from which the present Reef Buoy bears N. 40° East, distant one and a half miles. A white Pagoda on the summit of the Eastern Hill, on the South end of Biloo Island, N. 10° East Amherst large Pagoda near the Flag Staff S. 84° East, a conspicuous tree on the centre of the small Island off Amherst, S. 61½° East, a Vessel ought to stand direct for this Buoy and passing to the westward of it, you may then with a fair wind steer direct for the Reef Buoy, being careful not to bring it to northward of North East so as to avoid the Sunken Rocks and Foul Ground, extending from the Reef of Rocks off Amherst. The Reef Buoy is a Black Buoy, placed off the N. W. extreme of the Amherst or Queekini Reef in 7 fathoms, from which the white Pagoda on Biloo Island, bears N. 8° East, Amherst large Pagoda S. 54° East the conspicuous tree on the Island off Amherst S. 29° East, passing this Buoy at one hundred, and fifty or two hundred yards distance you may then stand in direct for the middle ground Buoy, which is also black, and situated on a Sunken Rock, in ½ of a fathom at low water, with deep

water on all sides of it, and bears from the Reef Buoy N. 84° East, distant 1½ miles, carrying from 7 to 4 fathoms at low water, passing this Buoy to the northward you may then stand on to the eastward, and Anchor in 3½ or 4 fathoms, when the conspicuous tree on the centre of Amherst Island is in one with Amherst Point, which forms a Bluff close to the large Pagoda.

A Vessel getting at all to the northward, when outside the Reef Buoy, will avoid the S. W. extreme of the Goodwin Sand by keeping Amherst large Pagoda in one with the Reef Buoy, or open to the southward of it.

When inside the Reef Buoy the middle ground Buoy bearing E. 7° S. will take a Vessel clear of the South extreme of the Sand on the North side of the Channel, but it ought not to be brought to bear at all to the Sd. It is high water on full and change at the Reef Buoy at 2 hours.

Amherst large Pagoda is in { Latitude 16° 04' 48" N.  
{ Longitude 97° 35' 06" E.

N. B.—In coming into the River keep all Black Buoys on your right hand and all Red on your left hand.

SHIPPING INTELLIGENCE.

Extract from the Log of the Barque "Planet."

Wednesday, 7th September, 1842.—At 1 P. M. observed the water on the Starboard bow much discoloured, kept the Ship away and sent a hand aloft to look out, who observed the same in patches as far as the eye could reach, running about W. S. W. and E. N. E. passed over the tail of one patch and had as near as we could suppose, 9 fathoms on a Sandy bottom a quantity of sand cast to the lead when hauled in. The extent of the Shoal appeared to be about 3 miles, Latitude 16° 23' N. Longitude 84° 10' East.

Captain Thompson further states that in the centre of this Shoal there were heavy breakers, the weather had been squally in the forenoon, but was then more moderate, though the breeze was fresh and a swell in consequence. They had no *Magnetic* Observation, but the Longitude was determined and laid down by good sights taken that morning and an excellent Chronometer.

## NOTICE

### OF A SUNKEN EUROPEAN VESSEL OFF POOREE,

NAME UNKNOWN.

The Marine Board having received information on the 27th of October last, from Mr. H. C. Hamilton, the Magistrate at Pooree, that a Vessel, believed to be a Barque, had been discovered sunk in deep water off Juggernaut Pagoda, shortly after the heavy gale which occurred about that period, with the sanction of Government, caused every practicable means to be adopted with a view to discover her identity.

She lies in 10 fathoms water stiff mud, distance from the shore 2684 yards, with Juggernaut Tree bearing N. 40° 59' W.

After every possible exertion, all the information obtainable beyond that contained in the following Report from the Master Attendant, describing minutely the Articles saved from her, is as follows :

Mr. Hamilton states under date 20th November, that he thought some portion of the upper Cabin roofs had given way, as he had collected several pieces of a Vessel painted blue and white, evidently from this Vessel, also a part of a Cabin door with the venetians gone. It was painted on one side a stone colour, with bright rose coloured pannels, and on the other buff, picked out with black and green

The remnant of the Main Sail bears the following mark :

**BENSON AND SON,**  
**LOWER SHADWELL,**  
**LONDON,**

and by the London Directory it appears that they are Sail-makers at that place. The Yards were black, and the lower Masts white throughout.

By information received from Captain Biden, Master Attendant at Madras, it appears that the "Achista," a Barque belonging to London, left Ennore on the 22d September last, laden with Salt for Calcutta, and has not been since heard of. The attention therefore of parties interested in her is more particularly drawn to this Advertisement.

### DESCRIPTION OF ARTICLES LYING AT THE BANKSHALL, RECOVERED FROM A VESSEL SUNK IN 10 FATHOMS WATER OFF THE TOWN OF POORIE.

F. and M. Truss and  
 Catarpin legs.

Head of Main Mast of Fir—broken off just below the Spider hoop—length of remains 17 ft. 5 i.—Mast-head 9 ft. 10 i.—Diameter 16 inches—painted white—Hounds secured with two iron hoops, upper one made with a hinge on aft side and screw-bolt on the other for the Patent Truss; on each side of the Hoop three Chain Catarpin legs.

Fore Mast entire, of Fir—length 60 ft. 3 i.—Mast-head 9 ft. 9 i.—Diameter at the Partners 16 inches—From heel to partners looks as if it had been painted red—above the partners for 4 ft. 2 i.—painted a dark green—above that painted white at partners—Eight flat pieces of iron fixed round the Mast—a wooden rack round the Mast for belaying-pins, secured by an iron band—no mark on the Mast indicating a lower deck.

Bowsprit of Fir, broken off just inside the knight heads—length of remains 26 feet—Diameter 19 inches—two iron hoops—outer one fitted underneath for a Chain Bobstay to be set up on; the inner Hoop for a Bobstay and Chain Bowsprit shrouds.

**Main Topmast entire**—extreme length 29 ft. 10 i.—Mast-head 4 ft. 7½ i.—Diameter at Cap 10½ inches—Sheave hole cut through the Mast—Iron Spider Strop with two thimbles on each side for Topgallant Rigging.

**Fore Topmast of Fir**, broken off at Cap—length of remains 18 ft. 9 i.—Mast-head 5 feet—Diameter at Cap 10½ inches—Iron Spider Strop fitted with two thimbles each side for Topgallant Rigging.

Topsail Sheet Blocks.

**Main Yard of Fir**—entire length 41 ft. 1 i.—Yard Arms each 3 ft. 3 i.—Diameter at slings 11 inches—Topsail Sheet Sheave at Yard Arm fitted in an iron box, or casing abaft the yard, and iron plate guards for chain sheets—patent Flow Trusses—Iron hoop on the centre of yard for topsail sheet blocks, which are iron.

Fore Yard Arm.

**Fore Yard entire**—length 43 ft. 6 i.—Yard Arm 3 ft.—Diameter 12 inches, of 1 i.—appears to be not so old as Main Yard—Iron work in the centre of the Yard like the Main. The Yard Arm Sheet Hole is through the yard with an iron plate, and two shoulders, as per margin.

F. and Main Topsail Parrel.

**Main Topsail Yard of Fir**—entire length 36 ft. 2 i.—Yard Arm 2 ft. 5 i. each—Diameter at Slings 8½ inch—Partial with wooden cheeks and iron clamp—a hoop in centre for T. Shackle—Yard Arm Sheave Hole guarded with iron wire.

**Fore Topsail Yard of Poon**, and apparently nearly a new Spar—Extreme length 35 ft. 6 i.—Yard Arm 2 ft. 5 i. each—Diameter at Slings 9½ inches, fitted exactly like the last.

**Spritsail Yard of Fir**—Extreme length 36 ft. 3½ i.—Diameter at Slings 9½ inches—apparently had been rigged across the Forecastle.

Fore Stay Heart and Jibboom Saddle.

**Jibboom broken off at the Cap**, made of a close grained white wood, uncertain of its being Fir—length of remains 1½ ft. 6 i.—Diameter 10½ inches—Jibboom Saddle and Fore Stay Heart in one.

All the Yards appear as if they had been primed with a lead colour, and afterwards painted black.

No Coir Yarn has been discovered, but plenty of Manilla Rope.

The following marks on the Canvass and Spars have been found:

Main top lower part,..... M

Main lower Cap, ..... M

Fore Top in two places, ..... M

On a Topsail, JOHN WILLIAM CHAPMAN WHEATBY BOILED.

Both Lower and Topsail Yards are fitted with Iron Jackstays.

On the Foresail No. 5.

TAEFORD & FORSTER

It would appear the Vessel was a Bark, about 300 Tons, for although no part of the Mizen Mast has been discovered, and her Main Braces led forward, the Topail Braces led aft. The Vessel evidently was not fitted in this Country, as no particle of Coir was found about this rigging or running gear—but there was some Manilla Rope.

*Camp Ferozepore, 1st January, 1843.*

Sir,

I have the honor to forward a copy of Major General McCaskill's despatch of the 20th October 1842, also a return of casualties in the affair of the 3d November last, which took place in the Khyber pass; copies of these documents had been despatched subsequent to the transactions to which they relate, but I conclude some accident must have happened to the dāk, by which they were forwarded.

I have the honor to be, &c.,

Sir,

I beg to report ■ you, for the information of Major General Pollock, C. B., that

the force of the 2d column under my immediate command, and as detailed in the margin, was attacked by the predatory tribes of the mountains on its march from Teseen, from which point it was separated from your head-quarters up to the date of its arrival at Guadamuck.

The most serious opposition which it encountered, was in the defiles of Jugdulluck, celebrated for the previous conflicts between the Ghilzies and our troops last year, and during the late advance on Cabool.

I broke up from my encampment at the foot of this pass early on the morning of the 18th instant, and made arrangements as I advanced, in proportions of course to my numerical strength, for the occupation of the several strong points, which command the road. Detached parties began to show themselves as my force reached the crest of the position, and after despatching flanking detachments on the domineering heights to the

right and left, I waited the approach of Brigadier Monteath with the main body of the column, before I descended into the lower ground beyond. The necessity for this caution was soon demonstrated, for as the Brigadier took up his position on the *plateau*, partly occupied by the ruins of the well known fort, he observed the enemy collecting in force around him, he, therefore, very properly determined to hold the head of the pass, until the whole of the baggage and material had moved down towards the plain below, and the rear guard under Lieut. Colonel Richmond should have joined him on the eminence. He placed his guns in battery, and their fire and that of the troops completely held the enemy, who were very numerous, in check, and he reports with much satisfaction, that though the attempts of the Ghilzies were obstinate and persevering, they did not succeed in making themselves masters of a single article of baggage or military stores; a sharp conflict was, however, sustained upon particular points, whilst the rear guard was coming up in the one direction, and our long train of animals descending in the other. The Brigadier finally gave over charge of the position to Lieutenant Colonel Richmond, and his rear guard whom he counselled to retain it one quarter of an hour after his own troops advanced beyond it: the succession of lower eminences on either flank, had, in the mean time been crowned, so far as our limited means permitted, under my personal directions, by parties from the advance guard from Jugdulluck to the valley of Soorkhab, and the baggage was thus protected from the attacks of the predatory bodies which were hovering around it, along that whole line of road: Lieutenant Colonel Richmond and the rear guard were vigorously pressed by the Ghilzies, as they finally came down from the *plateau*, but every where most creditably repelled the enemy, and made their way, late in the evening, to our encampment at Soorkhab; I have to regret that Captain Burnett, 54th N. I., who had been recently relieved from a captivity commenced at Ghuznee, was severely wounded on the heights, having volunteered his services with a party of the 16th N. I.; Brevet Captain Pender, H. M.'s 1st foot, had received a bad hurt in a previous skirmish near Seh Baba. Throughout these affairs the conduct of the troops employed, including the 2d and 16th N. I., temporarily attached to me, has deserved my highest approbation, and I feel it to be my duty to record that in the advance to Cabool, and in retiring from it, the bravery of that portion of the 4th brigade which took part in the active operations, viz. H. M.'s 31st regiment, and a wing of the 33d N. I., the remaining wing and the 6th N. I., having been detained to garrison Jellalabad and Gundamuck; as well as their endurance of privations and fatigue have been beyond all praise. No troops could in every respect have behaved better, and I feel myself to be deeply indebted to Brigadier Monteath, C. B., and to Lieutenant Colonel Bolton, of H. M.'s 31st, and to Lieutenant Colonel Richmond, 33d N. I., for the able and gallant manner in which they have been led. I enclose a return of killed and wounded.

Act No. — of 1843.

*An Act for declaring and amending the law regarding the condition of Slavery within the Territories of the East India Company.*

I. It is hereby enacted and declared, that no public Officer shall in execution of any decree or order of

Court, or for the enforcement of any demand of Rent or Revenue sell or cause to be sold any person or the right to the compulsory labor or services of any person on the ground that such person is in a state of slavery.

II. And it is hereby declared and enacted, that no rights arising out of an alleged property in the person and services of another as a slave shall be enforced by any Civil or Criminal Court or Magistrate within the Territories of the East India Company.

III. And it is hereby declared and enacted, that no person who may have acquired property by his own industry or by the exercise of any art, calling or profession, or by inheritance, assignment, gift or bequest shall be dispossessed of such property or prevented from taking possession thereof on the ground that such person or that the person from whom the property may have been derived was a slave.

IV. And it is hereby enacted, that any Act which would be a penal offence if done to a free man, shall be equally an offence if done to any person on the pretext of his being in a condition of slavery.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India after the 6th day of April next.

FORT WILLIAM,  
LEGISLATIVE DEPARTMENT,  
THE 6TH JANUARY, 1843.

The following Draft of a proposed Act was read in Council for the first time on the 6th of January 1843.

Act No. — of 1843.

*An Act for regulating inquiries into the truth of matters implicating the public conduct of Officers not removable without the sanction of Government within the Presidency of Fort St. George in Madras.*

I. Whereas it is expedient to amend the provisions contained in the Regulations concerning inquiries into the truth of matters implicating the public conduct of European Officers, and to extend the same to Officers not removable without the sanction of Government:

It is hereby enacted, that Regulations III. of 1809, II. of 1810, VI. of 1811, and VII. of 1822, of the Madras Code, be repealed.

II. And it is hereby enacted, that in the Territories subject to the Presidency of Fort St. George in Madras, whenever either the Courts of Sudr and Foujdaree Adawlut, or the Board of Revenue, shall be of opinion that substantial grounds exist for making a regular and formal inquiry into the truth of any imputation of official misconduct affecting any Officer subject to their control respectively, and not removable without the sanction of Government, they shall submit the documents on which their opinion may be founded, together with a statement of the charges reduced to distinct articles which they may propose to be made the subject of a regular investigation, to the Governor in Council of Fort St. George, for his consideration and orders.

III. And it is hereby enacted, that any charge or information, of the description aforesaid, may be preferred direct to the Courts of Sudr and Foujdaree Adawlut, or to the Board of Revenue, respectively, who shall examine the complainant or informant circumstantially upon oath, or upon solemn affirmation if he be entitled to be exempted from taking an oath, and require the party accused to explain or reply to any matters they may deem to need explanation and make such farther inquiries, upon oath or affirmation upon the subject as they may judge proper.

IV. And it is hereby enacted, that any charge or information may also be made before any Judge, Magistrate, or Collector, for any acts of the description beforementioned committed within their jurisdiction, respectively, who shall examine the complainants or informant circumstantially upon oath, or upon solemn affirmation if he be entitled to be exempted from taking an oath, and shall transmit the deposition so taken to the Sudr and Foujdaree Adawlut, or to the Board of Revenue, according as the person accused may be subject to those Authorities respectively.

V. And it is hereby provided, that it shall not be lawful for the Courts of Sudr and Foujdaree Adawlut, or the said Board, respectively, to act upon any such charge or information, unless the person preferring the same shall make oath, or solemn affirmation in case he be entitled to be exempted from taking an oath, that he believes the facts on which the charge is grounded to be true.

VI. And it is hereby provided, that it shall be lawful for the Courts of Sudr and Foujdaree Adawlut, and for the said Board, respectively, to dismiss any such charge or information, where they do not see any substantial reason for entering further into the inquiry. Provided, that on every occasion when they shall dismiss any such charge or information, they shall submit the same, together with all the circumstances of the case, in like manner as is provided in Section II. of this Act.

VII. And it is hereby provided, that the said Courts of Sudr and Foujdaree Adawlut, and the said Board, respectively, may, at any stage of the inquiry into such matters as aforesaid, require the person preferring such charge or information as aforesaid to furnish such security as may be deemed reasonable that he will attend and prosecute the charge to a conclusion, and in the event of security being so required all proceedings shall be stayed until the same shall be furnished accordingly.

VIII. And it is hereby provided, nevertheless, that if any matter of the nature aforesaid, affecting such Officer as is mentioned in the second Section of this Act, shall appear in the course of any proceedings, whether preliminary or otherwise, which shall come before or be reported to either of the Courts of Sudr and Foujdaree Adawlut, or the said Board, those authorities shall not upon such matter, or institute such inquiry upon oath or affirmation as aforesaid, into the same as they shall deem

proper for the purpose of such reference as aforesaid to the Governor in Council of Fort St. George, although no charge or information be preferred as aforesaid; and in such cases it shall not be necessary, before acting upon or instituting any inquiry concerning any matter so appearing in the course of proceedings, to require any oath or affirmation in regard to the truth of such matter.

IX. And it is hereby enacted, that if the Governor in Council of Fort St. George, upon such reference as is mentioned in the second Section of this Act, shall concur with the Authority by which it may be submitted, or if such Governor in Council shall, from information of the description aforesaid that may be laid before him in respect of any Officer not directly subject to the Courts or Board above named, deem it necessary to institute proceedings against any such Officer, he shall appoint a Commissioner or Commissioners for making a regular and formal inquiry into the truth of the matters referred. And it is hereby enacted, that it shall be competent to the Governor in Council by an Order of Council to determine in all cases where such Commissioner or Commissioners shall hold their sittings—as well within the local limits of Her Majesty's Supreme Court, as beyond those limits.

X. And it is hereby enacted, that on the appointment of every such Commission, the said Governor in Council shall direct whether the Commission shall be placed under the control of any of the Authorities aforesaid, or shall act immediately under the authority of Government, and all Commissions appointed as aforesaid shall be guided by the instructions which they may receive in this behalf from the Government.

XI. And it is hereby enacted, that the Commissioners or Commissioners appointed as aforesaid, before entering on the discharge of his or their duties, shall take the following oath:

I, A. B., Commissioner for the purpose of (here state the object of the Commission) do solemnly swear that I will faithfully and impartially perform the duty committed to me without fear, favor, or bias, in the best of my ability, knowledge, and judgment; so help me God.

XII. And it is hereby enacted, that whenever a charge shall be referred for investigation to a Special Commission, the said Governor in Council will determine whether the conduct of the prosecution shall be left to the accuser, or be undertaken on the part of Government. In the latter case, the said Governor in Council will nominate such person or persons as may be deemed proper, to conduct the prosecution on behalf of Government.

XIII. And it is hereby enacted, that it shall be the duty of Commissioners appointed under this Regulation, after receiving the plaint or charge, and the documents from which the same may have been prepared, to call upon the person accused for his reply to the accusation; to examine upon oath, or under a solemn declaration, the witnesses named by the accuser or the accused; to receive any further written documents offered in support of, or against the accusation; and to call for and take any further requisite evidence which may be indicated by the witnesses adduced or documents exhibited by either party, and may appear to be necessary for the ascertainment of facts, or the discovery of the truth or falsehood of the charges, or of any part thereof.

XIV. And it is hereby enacted, that for the discharge of the duties specified in the preceding Section, or any other functions which may be delegated to a Commission under this Regulation, such Commission when holding its sittings without the local limits of the Supreme Court of Madras shall be vested with the same powers as are exercised by the Zillah Courts, except that all process to cause the attendance of witnesses, or other compulsory process, shall be served through the Zillah Judge in whose jurisdiction

the Commission may be held, and executed by the Zillah Judge in whose jurisdiction the witness or other person upon whom the process is to be served may reside.

XV. And it is hereby enacted, that whenever such Commission shall hold its sittings by Order of Council as aforesaid, within the local limits of Her Majesty's Supreme Court of Judicature, such Commissioners shall be vested with a power to examine on oath or solemn affirmation to call for documentary and all other evidence, which they deem necessary for the purpose of their enquiry, to summon and enforce the attendance before them of all witnesses wheresoever resident, to punish contempts, to commit for perjury, and to punish by fine and imprisonment, the refusal to attend on summons duly served, or the refusal to give evidence.

XVI. And it is hereby enacted, that the provisions of Act XXIII. of 1840 shall be applicable for all the purposes of such Commissions aforesaid, in the same way as that Act is now applicable to Courts within the Provinces.

XVII. And it is hereby enacted, that in the event of any witness duly summoned by ordinary subpoena, or by subpoena duces tecum, through the medium of the Supreme Court (according as is prescribed in Act No. XXIII. of 1840) not attending before such Commissioner or Commissioners aforesaid, refusing to give evidence, or to produce such documentary evidence as may be called for by such Commissioners, that it shall be lawful for such Commissioner or Commissioners to issue process of arrest and search, and such process shall be executed through the Supreme Court, in the same manner as is prescribed in the Act for the execution of other process through the instrumentality of Her Majesty's Supreme Court of Judicature.

XVIII. And it is hereby enacted, that the provisions of Act XV. of 1835 shall be applicable (in cases of a Commission sitting within the limits of the Supreme Court) to the purposes of this Act—Provided, however, that in the case of any European British subject, rendering himself amenable to any of the penalties set forth in this Act, the Commissioner or Commissioners shall have the power to commit such person to the custody of the Superintendent of Police, for eventual trial before the Supreme Court, in the case of perjury or for temporary imprisonment under the award of such Commissioner or Commissioners.

XIX. And it is hereby enacted, that on the close of the evidence for the prosecution and defence, the accused shall be at liberty to record any observation upon the result of the inquiry which he may think necessary for the vindication of his conduct and character. The accuser, or the person appointed to conduct the prosecution on the part of Government, shall also be at liberty to record any remarks on the subject of the prosecution which he may deem requisite.

XX. And it is hereby enacted, that as soon after the conclusion of the proceedings as circumstances shall permit, the Commissioner or Commissioners shall, when the Commission shall be instructed to act immediately under the authority of Government, submit directly to the Government to which they or they may be subordinate, and in other cases to the Controlling Council Board, the proceedings under the Commission, accompanied by translations of papers not in the English language, together with a summary of the pleadings and evidence, and his or their opinion of the merits of the case.

XXI. And it is hereby provided, that it shall be lawful for the said Governor in Council, or the Controlling Council Board, upon consideration of the report of any such Commission as aforesaid, to direct the Commissioner or Commissioners to take further evidence, or to give further explanation of his or their opinion or opinions connected with the case investigated, and the Commissioner or Commissioners

are authorized and required to take such further evidence, and to give such further explanation.

XXII. And it is hereby enacted, that the Sudder and Foujdaree Adawlut, or the Board to which any report of a Commissioner or Commissioners may be submitted as aforesaid after due consideration of the same, and after obtaining such further evidence or explanations as they may require, shall submit the whole of the proceedings and documents received by them to the Government, together with their opinion whether any and what charges have been established against the accused.

XXIII. And it is hereby provided, that whenever a Special Commission may be appointed under the Provisions of this Act, the said Governor in Council will determine, on a view of the nature and circumstances of the case, whether the accused Officer shall be suspended from the discharge of the functions of his office, and if so, whether he shall be permitted to draw the established allowances of his office, or otherwise.

XXIV. And it is hereby provided, that the Governor in Council on consideration of the report and proceedings submitted to him in pursuance of Sections XX and XXII. of this Act, will pass such decision on the case as may appear to him most consonant to the principles of justice and consistent with the powers possessed by Government in matters of this description; and in the event of his deeming it necessary that the party accused should be brought to trial by a public prosecution before a competent Court of Law, will issue the necessary instructions for that purpose to the Law Officers of Government. But whatever proceedings may be held, or whatever decision or order may be passed by Government, individuals deeming themselves aggrieved by any public Officer will be at all times at liberty to seek redress according to the ordinary forms prescribed by law.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India after the 6th day of April next.

OVERLAND LETTERS AND POSTAGE.

**I**T is hereby notified for general information—

*First.*—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by the Overland Mails, and except those specially marked via "Falmouth," will be sent through France, and thus be subject to the heaviest rate of postage.

*Second.*—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets for England. Letters, &c., for places lying between Bombay and Marseilles, will be despatched in separate Packets.

*Third.*—Letters for the United Kingdom of Great Britain, weighing less than a quarter of an ounce, and passing through France, are charged single postage, which by that route amounts to 2s. 8d. By the Falmouth route, Letters of half an ounce in weight, are subject to single postage only, which by that route, has now been reduced to 1s.

Newspapers, if sent via Falmouth, are free of postage; but if transmitted by the way of Marseilles, they are charged 2d. each.

#### NOTICE

*Touching the Pilot Station for the River Hooghly during the S. W. Monsoon of the Year 1843.*

**NOTICE** is hereby given, that the same causes existing which during last S. W. Monsoon rendered necessary the removal of the Pilot Station from off Point Palmyras to a position 6 or 8 miles S. W. of the outer Floating Light, and in from 16 to 20 fathoms water, this latter Station will be continued during the next S. W. Monsoon, viz. from 15th March to the 15th September.

During the last S. W. Monsoon, no difficulty would appear to have been experienced by Vessels passing from False Point Light House to the New Station, nor need they be left, if common attention be paid to the lead and to the following Directions

prepared by Captain Lloyd, late Officiating Marine Surveyor General, after a careful Survey of the ground between the two Points.

False Point Light House is in Latitude 20° 19 1/2' N. and Longitude 86° 47' E., and that of the South Channel Buoy in Latitude 20° 59' N. and Longitude 88° 4' E., and bears from the former N. 61 E. true N. E. by E. 1/4 E. by Compass distant 83 miles, and is laid in 12 fathoms.

A Bank of Soundings extends from off Point Palmyras, in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hooghly deposit which is sand and mud with shining specks,) is a gravelly substance composed of sand shells and small pebbles discharged from the "Kunka," and other Rivets, near Point Palmyras, the lighter material of which being carried further out, is deposited and forms what is called the Pilots' Ridge, which in crossing to the N. Wd. shews a little less water than on either side. In coming from seaward you shoal rather suddenly from 28 to 23 fathoms upon its Eastern Edge. It is composed of a shelly sand or minute gravel of a reddish or rusty brown colour.

The best guide therefore to enable a Vessel to direct her course from False Point to the Vessels at the New Station, will be to run down the Edge of the Pilots' Ridge, which can readily be done by making the Light House and bringing it to bear about W. S. W. or S. W. by W. distant by computation from 10 to 15 miles then steering to the E. N. E. and having gradually increased the depth of water to 23 fathoms upon the Eastern Edge of the Ridge, regulate the course to keep between it and 27 fathoms, when by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels, (if the above limits are kept within) either by getting too far to Windward or falling to Leeward; for the Soundings increase so rapidly to seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it and 23 fathoms the same distance to the Westward of it.

"The Soundings to seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it."

Vessels approaching the Station during the day are required to shew the usual Signal for a Pilot and by night to give as early and as much warning as possible by firing Guns, burning Blue Lights and by exhibiting two Lights in a vertical position, where best seen, but Commanders are recommended to avoid as much as possible making the Station during the night. To mark the Station one of the Pilot Vessels will shew during the day a large St. George's Jack (white with red cross) at the Main Top Gallant Mast Head and a good Mast Head Light during the night and will burn a Blue Light and a Maroon alternately every half hour and fire a Gun at 8 P. M. at midnight

\* The Light Vessels are directed when another Vessel is approaching during the night, shew a Light at the Gaff end to mark the way they are riding.

Vessels approaching the Station and while there, as well as when approaching the Light, and Buoy Station Vessels are warned to be careful in avoiding collision by

night or by day and in communicating with either of the above Vessels, either at anchor or afloat, when it is necessary to cross her to pass under the Stern, several instances of serious damage having occurred during the S. W. Monsoon, whereby the outer Floating Light was more than once compelled to leave her Station for repairs to the great inconvenience and risk of Vessels entering and quitting the River.

A Vessel will be stationed off False Point Light House, keeping it according to circumstances W. by S. to N. W. by N., in from 10 to 15 fathoms water.

She will exhibit during the day, when Vessels are in sight, a large Danish Jack at the Main Top (Gallant Mast Head (red with white cross) and during the night a good Mast Head Light in the same place and will burn a Blue Light every half hour.

This Vessel will have no Pilot on board and is only intended generally to furnish information touching the Course to the New Station, but particularly to do so to Vessels which may be in ignorance of the position of the New Station.

#### NOTICE

The following Directions for Vessels entering the Moulmein River, prepared by Lieut. W. Fell, I. N., are published for general information.

By order of the Marine Board,

C. B. GREENLAW,

Secretary.

Fort William, }  
The 12th Dec., 1842. }

#### DIRECTIONS

*For Vessels entering the Moulmein River.*

A Vessel coming from the southward on sight-  
ing the fair way Buoy, which is a Black Buoy with two white rings, painted on the upper part of it, and placed in 43 fathoms water, on a patch of broken ground, of about 250 yards in extent, from which the present Reef Buoy bears N. 40° East, distant one and a half miles. A white Pagoda on the summit of the Eastern Hill, on the South end of Biloo Island, N. 10° East Amherst large Pagoda near the Flag Staff S. 84° East, a conspicuous tree on the centre of the small Island off Amherst, S. 61½° East, a Vessel ought to stand direct for this Buoy and passing to the westward of it, you may then with a fair wind steer direct for the Reef Buoy, being careful not to bring it to northward of North East so as to avoid the Sunken Rocks and Foul Ground, extending from the Reef of Rocks off Amherst. The Reef Buoy is a Black Buoy, placed off the N. W. extreme of the Amherst or Queekini Reef in 7 fathoms, from which the white Pagoda on Biloo Island, bears N. 5° East, Amherst large Pagoda S. 54° East the conspicuous tree on this Island off Amherst S. 29° East, passing this Buoy at one hundred and fifty or two hundred yards distance you may then stand direct for the middle ground Buoy, which is also black, and situated on a Sunken Rock, in ½ of a fathom at low water, with deep

water on all sides of it, and bears from the Reef Buoy N. 84° East, distant 1½ miles, carrying from 7 to 4 fathoms at low water, passing this Buoy to the northward you may then stand on to the eastward, and Anchor in 3½ or 4 fathoms, when the conspicuous tree on the centre of Amherst Island is in one with Amherst Point, which forms a Bluff close to the large Pagoda.

A Vessel getting at all to the northward, when outside the Reef Buoy will avoid the S. W. extreme of the Goodwin Sand by keeping Amherst large Pagoda in one with the Reef Buoy, or open to the southward of it.

When inside the Reef Buoy the middle ground Buoy bearing E. 7° S. will take a Vessel clear of the South extreme of the Sand on the North side of the Channel, but it ought not to be brought to bear at all to the Sd. It is high water on full and change at the Reef Buoy at 2 hours.

Amherst large Pagoda is in } Latitude 16° 04' 48" N.  
} Longitude 97° 35' 06" E.

N. B.—In coming into the River keep all Black Buoys on your right hand and all Red on your left hand.

#### SHIPPING INTELLIGENCE

*Extract from the Log of the Barque "Planet."*

Wednesday, 7th September, 1842.—At 1 P. M. observed the water on the Starboard bow much discoloured, kept the Ship away and sent a hand aloft to look out, who observed the same in patches as far as the eye could reach, running about W. S. W. and E. N. E. passed over the tail of one patch and had as near as we could suppose, 9 fathoms on a Sandy bottom a quantity of sand fast to the lead when hauled in. The extent of the Shoal appeared to be about 3 miles, Latitude 16° 23' N. Longitude 84° 10' East.

Captain Thompson further states that in the centre of this Shoal there were heavy breakers, the weather had been equally in the forenoon, but was then more moderate, though the breeze was fresh and a swell in consequence. They had no Meridian Observation, but the Longitude was determined and laid down by good sights taken that morning and an excellent Chronometer.

## NOTICE

### OF A SUNKEN EUROPEAN VESSEL OFF POOREE,

NAME UNKNOWN.

The Marine Board having received information on the 27th of October last, from Mr. H. C. Hamilton, the Magistrate at Pooree, that a Vessel, believed to be a Barque, had been discovered sunk in deep water off Juggernaut Pagoda, shortly after the heavy gale which occurred about that period, with the sanction of Government, caused every practicable means to be adopted with a view to discover her identity.

She lies in 10 fathoms water stiff mud, distance from the shore 2664 yards, with Juggernaut Tree bearing N. 40° 59' W.

After every possible exertion, all the information obtainable beyond that contained in the following Report from the Master Attendant, describing minutely the Articles saved from her, is as follows:

Mr. Hamilton states under date 20th November, that he thought some portion of the upper Cabin roofs had given way, as he had collected several pieces of a Vessel painted blue and white, evidently from this Vessel, also a part of a Cabin door with the venetians gone. It was painted on one side a stone colour, with bright rose coloured pannels, and on the other buff, packed out with black and green.

The remnant of the Main Sail bears the following mark:

**BENSON AND SON,**  
**LOWER SHADWELL,**  
**LONDON,**

and by the London Directory it appears that they are Sail-makers at that place. The Yards were black, and the lower Masts white throughout.

By information received from Captain Biden, Master Attendant at Madras, it appears that the "Acacia," a Barque belonging to London, left Eumore on the 22d September last, laden with Salt for Calcutta, and has not been since heard of. The attention therefore of parties interested in her is more particularly drawn to this Advertisement.

#### DESCRIPTION OF ARTICLES LYING AT THE BANKSHALL, RECOVERED FROM A VESSEL SUNK IN 10 FATHOMS WATER OFF THE TOWN OF POORIE.

F. and M. Truss and }  
 Catapult legs.

Head of Main Mast of Fir—broken off just below the Spidee Hoop—length of remains 17 ft. 5 i.—Mast-head 9 ft. 10 i.—Diameter 16 inches—painted white—Hounds secured with two iron hoops, upper one made with a hinge on aft side and screw-bolt on the other for the Patent Truss; on each side of the Hoop three Chain Catapult legs.

Fore Mast entire, of Fir—length 60 ft. 3 i.—Mast-head 9 ft. 9 i.—Diameter at the Partners 16 inches—From heel to partners looks as if it had been painted red—above the partners for 4 ft. 9 i.—painted a dark green—above that painted white at partners—Eight flat pieces of iron fixed round the Mast—a wooden rack round the Mast for belaying-pins, secured by an iron band—no mark on the Mast indicating a lower deck.

Bowsprit of Fir, broken off just inside the knight heads—length of remains 23 feet—Diameter 19 inches—two iron hoops—outer one fitted underneath for a Chain Bobstay to be set up on; the inner Hoop for a Bobstay and Chain Bowsprit shrouds.

Main Topmast entire—extreme length 29 ft. 10 i.—Mast-head 4 ft. 7½ i.—Diameter at Cap 10½ inches—Sheave hole cut through the Mast—Iron Spider Strop with two thimbles on each side for Topgallant Rigging.

Fore Topmast of Fir, broken off at Cap—length of remains 18 ft. 9 i.—Mast-head 5 feet—Diameter at Cap 10½ inches—Iron Spider Strop fitted with two thimbles each side for Topgallant Rigging.

Topsail Sheet Blocks.

Fore Yard Arm.

Fore and Main Topsail Parrel.

Main Yard of Fir—entire length 44 ft. 4 i.—Yard Arms each 3 ft. 3 i.—Diameter at slings 11 inches—Topsail Sheet Sheave at Yard Arm fitted in an iron box or casing abaft the yard, and iron plate guards for chain sheets—patent Bow Trusses—Iron hoop on the centre of yard for top-sail sheet blocks, which are iron.

Fore Yard entire—length 43 ft. 6 i.—Yard Arm 3 ft.—Diameter 12 inches, of Fir—appears to be not so old as Main Yard—Iron work in the centre of the Yard like the Main. The Yard Arm Sheet Hole is through the yard with an iron plate, and two shoulders, as per margin.

Main Topsail Yard of Fir—entire length 36 ft. 2 i.—Yard Arm 2 ft. 5 i. each—Diameter at Slings 8½ inch—Parrel with wooden cheeks and iron clamp—a hoop in centre for T. Shackle—Yard Arm Sheave Hole guarded with iron wire.

Fore Topsail Yard of Poon, and apparently nearly a new Spar—Extreme length 35 ft. 6 i.—Yard Arm 2 ft. 5 i. each—Diameter at Slings 9½ inches, fitted exactly like the last.

Spritsail Yard of Fir—Extreme length 30 ft. 3½ i.—Diameter at Slings 9½ inches—apparently had been rigged across the Forecastle.

Jibboom broken off at the Cap, made of a close grained white wood, uncertain of its being Fir—length of remains 14 ft. 6 i.—Diameter 10½ inches—Jibboom Saddle and Fore Stay Heart in one.

All the Yards appear as if they had been primed with a lead colour, and afterwards painted black.

No Coir Yarn has been discovered, but plenty of Manilla Rope.

The following marks on the Canvass and Spars have been found:

Main top lower part,..... M

Main lower Cap, ..... M

Fore Top in two places, ..... M

On a Topsail, JOHN WILLIAM CHAPMAN WRITER BOILED.

Both Lower and Topsail Yards are fitted with Iron Jackstays.

It would appear the Vessel was a Bark, about 300 Tons, for although no part of the Mizen Mast has been discovered, and her Main Braces led forward, the Topsail Braces led aft. The Vessel evidently was not fitted in this Country, as no particle of Coir was found about this rigging or running gear—but there was some Manilla Rope.

## FORT WILLIAM, OPIUM DEPARTMENT.

THE 9TH JANUARY, 1843.

NOTICE is hereby given, that on Monday, the 8th day of February, 1843, at the hour of Eleven o'Clock in the forenoon, will be put up to Sale at the Exchange Rooms, at Calcutta, and sold by Public Auction, for Exportation by Sea, the undermentioned quantity of Opium, the Provision 1841-42, subject to the following Conditions; viz.

Produce of Behar Agency, .....	Chests 1,100
Ditto of Benares ditto, .....	" 700
Total Chests 1,800	

### CONDITIONS OF SALE.

1st.—The Opium will be sold for Exportation by Sea only, and no Certificate will be granted except to cover such Export.

2d.—The Opium to be offered for Sale at an Upset Price of Rupees 400 per Chest, and to be all sold to the highest bidder above that price.

3d.—If at the above Sale the entire quantity of 1,800 Chests shall not be sold, it shall subsequently be competent for the Board of Customs, Salt and Opium, to dispose of the lots which remain on hand at future Sales.

4th.—Each Lot to contain Five Chests.

5th.—A deposit in a Promissory Note for 1,000 Rupees per Lot or 200 Rupees per Chest, shall be made by the Purchaser in the Sale Room, and before the Lot is Registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'Clock of the afternoon of Friday, the 10th February 1843, or on the other hand failing such redemption by the time aforesaid, then the Lot or Lots for which no Sub-Treasurer's Receipts, or Deposit of other Public Securities as aforesaid, shall have been delivered in, shall be re-sold at such time or times, and under such Conditions of Re-sale as the Board of Customs, Salt and Opium, shall see fit, and all losses and expenses whatever attending such Re-sale, shall be borne and paid by the Defaulters, whilst any profit accruing from such Re-sale shall be forfeited to Government.

6th.—The Promissory Notes taken on the day of Sale, under the last mentioned Condition, if remaining unredeemed on the said 10th February 1843, will be placed in the hands of the Attorney to the Hon'ble Company for realization in such manner as to him shall seem fit.

7th.—No Tender of Money, Sub-Treasurer's Receipts or Public Securities, on account of Opium, upon which the prescribed deposit may not have been made before 4 o'Clock of the 10th February, will afterwards accepted.

8th.—The Opium now advertised for Sale shall be paid for within one Calendar month from the day of Sale, that is to say no Treasury Receipts will be accepted in payment after 4 p. m. of Monday, the 6th March 1843, and in case any Lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit of 1,000 Rupees per Lot or 200 Rupees per Chest, or any Public Securities that may have been deposited on account of such Lots or Chests, shall be forfeited, and the Opium be disposed of on account of Government at such time and in such manner as the Board of Customs, Salt and Opium, shall think fit.

9th.—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of Lots of their purchases, which they may desire to be included in each Certificate or Order, and it is to be clearly understood, that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single Lots, or of a different number of Lots or Chests, whether more or less than the number of Lots or Chests originally required to be included in each Certificate or Order.

10th.—No Sub-Treasurer's Receipts, or Deposit of Public Securities, under the 5th of the present Conditions, will be received in this Office, except from the party recorded as the purchaser in the Sale Book, or his authorized agent. The Receipt for such Deposit will be granted only to the purchaser or his authorized agent, and the Public Securities deposited, will be returned when the clearance has been made by the said purchaser or his agent.

11th.—The Officer Superintending the Sale on the part of the Board of Customs, Salt and Opium, is empowered to reject at his discretion the bid of any individual, unless such individual shall, on demand, tender at the time, a Deposit either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or other Government Securities, equal to One Thousand Rupees per Lot, (or Two Hundred Rupees per Chest,) on each Lot so bid for.

12th.—The Purchaser of any Lot shall have the option of naming and purchasing in immediate succession any number of Lots of the same Agency Opium to the extent of Fifty Lots, and for the Lots so purchased, the Purchaser shall deposit 1,000 Rupees per Lot, and pay the same price per Chest as that for which he purchased his first Lot, provided always that there remain a sufficient number of Lots of that Opium to complete the said Fifty, but not otherwise.

13th.—In the event of any dispute or difference touching or concerning any matter or question arising out of the Sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every Plea and Pleas to the jurisdiction of the said Supreme Court shall be waived.

14th.—The following Papers, together with samples of the Opium for Sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date, by application at the Office of the Secretary to the Board of Customs, Salt and Opium.

No. 1.—Certificate of the Opium now advertised for Sale.  
No. 2.—Report of the Examination of such Opium.

15th.—The Public are hereby informed, that in providing the investment of the Behar and Benares Opium for the year 1841-42, the same precautions have been taken as those which have been observed during past years, to have the Drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the Drug when packed at Behar and Benares, and a Statement of the average weight of Six Chests from each dispatch at Calcutta, may be seen on application at the Office of the Secretary to the Board of Customs, Salt and Opium.

16th.—Four Chests of Behar and Benares Opium, which have been reserved from the provision of the two preceding years, will be also shown to the Purchasers on the day of Sale, to enable them to judge of the state of preservation in which the Drug has kept.

17th.—The Public are hereby informed, that in addition to the quantity abovementioned, the following quantities more or less of Behar and Benares Opium will be brought to Sale this year or about the date specified below.

	Behar about Chests.	Benares about Chests.	Total about Chests.
On or about April 17th, .....	2100	1100	3200
On or about May 22d, .....	1200	800	2000
On or about June 28th, .....	1799	1389	3188
	5099	3289	8388

18th. Application having been made by the French Authorities, for the 300 Chests of Opium deliverable to them, under the 6th Article of the Convention between Great Britain and France, dated 7th March 1813, in the proportions stated in the margin, it is hereby notified that in the event of the whole, or any portion of the Opium thus allotted by the French Government, not being cleared out within the limited period allowed for clearance, viz., one month after the date of the sale, such quantity of Opium (or any part thereof) as may remain unexported, will be sold at the sale next ensuing the date of payment, or disposed of at a sale to be held expressly for the purpose.

By Order of the Board of Customs, Salt and Opium,  
H. TORRENS, Secretary.

J. J. HARVEY,

Collector of Govt. Customs.

Calcutta, 20th January, 1843.

The Collector has no objection to pass Packages, which are intended for private use, and not for Sale unopened—provided that at the time they are applied for, satisfactory proof of their contents in the shape of Invoices, Bills, or Letters of Advice are produced. In the absence of these documents, owners should depute a person to be present at the opening of their Packages.

The Collector has nothing to do with the landing of Packages from Ships, nor with forwarding them to their owners or destinations.

*Notice of a Floating Light stationed at the entrance of the Bombay Harbour.*

The following Notice of a Floating Light stationed in the Fair Channel into Bombay Harbour, is published for general information.

By Order of the Marine Board,

C. B. GREENLAW, Secy.

Fort William, }  
The 19th January, 1843. }

## NOTICE

Is hereby given, that a Floating Light is stationed in the Fair Channel into Bombay Harbour about  $\frac{1}{2}$  of a mile to the S. W. by S. from the Fair Way Buoy, in about 11 fathoms at high water, and 7 fathoms at low spring tides, with the following bearings and distances.

Flag Staff on Malabar Point, N.  $5^{\circ} 46''$  E. distance 6. 90 Nautic. Miles.

The Light House on Colaba, N.  $21^{\circ} 34''$  E. distant 4. 58 Nautic. Miles.

The Fair Way Buoy N. E. by N. distant  $\frac{1}{2}$  of a mile.

The Floating Light at the Sunken Rock, N.  $36^{\circ} 50''$  E. distant 4. 68 miles.

Kennery Island, S.  $14^{\circ} 15''$  E. distant 7. 48 miles.

The Point of the S. W. Frong in 6 fathoms... foul ground bears North about 2 miles.

The Middle of Thull Shoal, E. S. E. 11 miles.

When approaching the Harbour, the Floating Light Vessel is seen bearing on any point from N. by E. round to the Eastward as far as S. E. by S. a Ship might steer directly for it, and when up with the Light Vessel, should steer from her N. E. Easterly, to pass about  $\frac{1}{2}$  of a mile to the Eastward of the other Light Vessel, which is moored about a quarter of a mile to the Southward of the Sunken Rock. After rounding the Rock Light Vessel, you may steer more Northerly, and if it be at night, should anchor about 1 mile to the N. E. by N. from it, where the water will be smooth. The South point of the Middle Ground Shoal, bears N. N. E., distant 2 miles from the Rock Light Vessel.

Both Light Vessels are painted Red, each carrying a Ball on the Light Mast, and during daylight they hoist a Red Flag when a sail is in sight.

The Outer Floating Light burns a Blue Light at the end of each hour during the night, and displays a Torch at the half hours.

The Flood Tide comes in from S. W. and Ebb from the N. E. It is High Water at 12 hours on full and change of the Moon.

D. ROSS,

Master Attendant.

BOMBAY, }  
28th December, 1842. }

NOTE.—The Floating Light was tried during the last Monsoon and rode well, but in the event of her breaking adrift, the Fair Way Buoy is continued at its station.

## NOTICE

The following Directions for Vessels entering the Moulmein River, prepared by Lieut. W. Fell, 1. N., are published for general information.

By order of the Marine Board,

C. B. GREENLAW,

Secretary.

Fort William, }  
The 12th Dec., 1842. }

## DIRECTIONS

*For Vessels entering the Moulmein River.*

A Vessel coming from the southward on sighting the fair way Buoy, which is a Black Buoy with two white rings, painted on the upper part of it, and placed in  $4\frac{1}{2}$  fathoms water, on a patch of broken ground, of about 250 yards in extent, from which the present Reef Buoy bears N.  $40^{\circ}$  East, distant one and a half miles. A white Pagoda on the summit of the Eastern Hill, on the South end of Biloo Island, N.  $10^{\circ}$  East Amherst large Pagoda near the Flag Staff S.  $84^{\circ}$  East, a conspicuous tree on the centre of the small Island off Amherst, S.  $61\frac{1}{2}^{\circ}$  East, a Vessel ought to stand direct for this Buoy and passing to the westward of it, you may then with a fair wind steer direct for the Reef Buoy, being careful not to bring it to northward of North East so as to avoid the Sunken Rocks and Foul Ground, extending from the Reef of Rocks off Amherst. The Reef Buoy is a Black Buoy, placed off the N. W. extreme of the Amherst or Queekini Reef in 7 fathoms, from which the white Pagoda on Biloo Island, bears N.  $5^{\circ}$  East, Amherst large Pagoda S.  $54^{\circ}$  East the conspicuous tree on the Island off Amherst S.  $29^{\circ}$  East, passing this Buoy at one hundred and fifty or two hundred yards distance you may then stand in direct for the middle ground Buoy, which is also black, and situated on a Sunken Rock, in  $\frac{1}{2}$  of a fathom at low water, with deep water on all sides of it, and being from the Reef Buoy N.  $84^{\circ}$  East, distant  $1\frac{1}{2}$  miles, carrying from 7 to 4 fathoms at low water, passing this Buoy to the northward you may then stand on to the eastward, and Anchor in  $3\frac{1}{2}$  or 4 fathoms, when the conspicuous tree on the centre of Amherst Island is in one with Amherst Point, which forms a Bluff close to the large Pagoda.

A Vessel getting at all to the northward, when outside the Reef Buoy, will avoid the N. W. extreme of the Goodwin Sand by keeping Amherst large Pagoda in one with the Reef Buoy, and steering to the southward of it.

When inside the Reef Buoy the middle ground Buoy bearing E. 7° S. will take a Vessel clear of the South extreme of the Sand on the North side of the Channel, but it ought not to be brought to bear at all to the Sd. It is high water on full and change at the Reef Buoy at 2 hours.

Amherst large Pagoda is in { Latitude 16° 04' 48" N.  
 { Longitude 97° 35' 00" E.

N. B.—In coming into the River keep all Black Buoys on your right hand and all Red on your left hand.

### NOTICE

*Touching the Pilot Station for the River Hooghly during the S. W. Monsoon of the Year 1843.*

NOTICE is hereby given, that the same causes existing which during last S. W. Monsoon rendered necessary the removal of the Pilot Station from off Point Palmyras to a position 6 or 8 miles S. W. of the outer Floating Light, and in from 16 to 20 fathoms water, this latter Station will be continued during the next S. W. Monsoon, viz. from 15th March to the 15th September.

During the last S. W. Monsoon, no difficulty would appear have been experienced by Vessels passing from False Point Light House to the New Station, nor can any be felt, if common attention be paid to the lead and to the following Directions prepared by Captain Lloyd, late Officiating Marine Surveyor General, after a careful Survey of the ground between the two Points.

"False Point Light House is in Latitude 20° 19 1/2' N. and Longitude 86° 47' E., and that of the South Channel Buoy in Latitude 20° 59' N. and Longitude 88° 4' E., and bears from the former N. 1/2 E. true N. E. by E. 1/2 E. by Compass distant 83 miles, and is laid in 12 fathoms."

"A Bank of Soundings extends from off Point Palmyras, in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hooghly deposit which is sand and mud with shining specks,) is a gravelly substance composed of sand shells and small pebbles discharged from the "Kunka," and other Rivers; near Point Palmyras, the lighter material of which being carried further out, is deposited and forms what is called the Pilots' Ridge, which in crossing to the N. Wd. shews a little less water than on either side. In coming from seaward you shoal rather suddenly from 28 to 25 fathoms upon its Eastern Edge. It is composed of a shelly sand or minute gravel of a reddish or rusty brown colour."

"The best guide therefore to enable a Vessel to direct her course from False Point to the Vessel at the New Station, will be to run down the Edge of the Pilots' Ridge, which can readily be done by making the Light House and bringing

it to bear about W. S. W. or S. W. by W. distant by computation from 10 to 15 miles then steering to the E. N. Ed. and having gradually increased the depth of water to 23 fathoms upon the Eastern Edge of the Ridge, regulate the course to keep between it and 27 fathoms, when by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessel, (if the above limits are kept within) either by getting too far to Windward or falling to Leeward; for the Soundings increase so rapidly to seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it and 23 fathoms the same distance to the Westward of it."

"The Soundings to seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it."

Vessels approaching the Station during the day are required to shew the usual Signal for a Pilot and by night to give as early and as much warning as possible by firing Guns, burning Blue Lights and by exhibiting two Lights in a vertical position, where best seen, but Commanders are recommended to avoid as much as possible making the Station during the night. To mark the Station one of the Pilot Vessels will shew during the day a large St. George's Jack (white with red cross) at the Main Top Gallant Mast Head and a good Mast Head Light during the night and will burn a Blue Light and a Maroon alternately every half hour and fire a Gun at 8 P. M. at midnight

\* The Light Vessels are directed when another Vessel is approaching during the night, shew a Light at the Gaff end to mark the way they are riding.

Vessels approaching the Station and while there, as well as when approaching the Light, and Buoy Station Vessels are warned to be careful in avoiding collision by night or by day and in communicating with either of the above Vessels, either at anchor or leave too; and when it is necessary to cross her to pass under the Stern, several instances of serious damage having occurred during the S. W. Monsoon; whereby the outer Floating Light was more than once compelled to leave her Station for repairs to the great inconvenience and risk of Vessels entering and quitting the River.

A Vessel will be stationed off False Point Light House, keeping it according to circumstances W. by S. to N. W. by N., in from 10 to 15 fathoms water.

She will exhibit during the day, when Vessels are in sight, a large Danish Jack at the Main Top Gallant Mast Head (red with white cross) and during the night a good Mast Head Light in the same place and will burn a Blue Light every half hour.

This Vessel will have no Pilot on board and is only intended generally to furnish information touching the Course to the New Station, but particularly to do so to Vessels which may be in ignorance of the position of the New Station.

Secretary.

## NOTICE

### OF A SUNKEN EUROPEAN VESSEL OFF POOREE,

NAME UNKNOWN.

The Marine Board having received information on the 27th of October last, from Mr. H. C. Hamilton, the Magistrate at Pooree, that a Vessel, believed to be a Barque, had been discovered sunk in deep water off Juggernaut Pagoda, shortly after the heavy gale which occurred about that period, with the sanction of Government, caused every practicable means to be adopted with a view to discover her identity.

She lies in 10 fathoms water stiff mud, distance from the shore 2684 yards, with Juggernaut Tree bearing N. 40° 51' W.

After every possible exertion, all the information obtainable beyond that contained in the following Report from the Master Attendant, describing minutely the Articles saved from her, is as follows :

Mr. Hamilton states under date 20th November, that he thought some portion of the upper Cabin roofs had given way, as he had collected several pieces of a Vessel painted blue and white, evidently from this Vessel, also a part of a Cabin door with the venetians gone. It was painted on one side a stone colour, with bright rose coloured pannels, and on the other buff, picked out with black and green

The remnant of the Main Sail bears the following mark :

**BENSON AND SON,**  
**LOWER SHADWELL,**  
**LONDON,**

and by the London Directory it appears that they are Sail-makers at that place. The Yards were black, and the lower Masts white throughout.

By information received from Captain Biden, Master Attendant at Madras, it appears that the "Acasta," a Barque belonging to London, left Ennore on the 22d September last, laden with Salt for Calcutta, and has not been since heard of. The attention therefore of parties interested in her is more particularly drawn to this Advertisement.

#### DESCRIPTION OF ARTICLES LYING AT THE BANKSHALL, RECOVERED FROM A VESSEL SUNK IN 10 FATHOMS WATER OFF THE TOWN OF POORIE.

F. and M. Truss and  
Catarpin legs.

Head of Main Mast of Fir—broken off just below the Spider hoop—length of remains 17 ft. 5 i.—Mast-head 9 ft. 10 i.—Diameter 16 inches—painted white—Hounds secured with two iron hoops, upper one made with a hinge on aft side and screw-bolt on the other for the Patent Truss; on each side of the Hoop three Chain Catarpin legs.

Fore Mast entire, of Fir—length 60 ft. 3 i.—Mast-head 9 ft. 9 i.—Diameter at the Partners 16 inches—From heel to partners looks as if it had been painted red—above the partners for 4 ft. 9 i.—painted a dark green—above that painted white at partners—Eight flat pieces of iron fixed round the Mast—a wooden rack round the Mast for belaying-pins, secured by an iron band—no mark on the Mast indicating a lower deck.

Bowsprit of Fir, broken off just inside the knight heads—length of remains 23 feet—Diameter 11 inches—two iron hoops—outer one fitted underneath for a Chain Bobstay to be set up on; the inner Hoop for a Bobstay and Chain Bowsprit shrouds.

Main Topmast entire—extreme length 20 ft. 10 i.—Mast-head 4 ft. 7½ i.—Diameter at Cap 10½ inches—Sheave hole cut through the Mast—Iron Spider Strop with two thimbles on each side for Topgallant Rigging.

Fore Topmast of Fir, broken off at Cap—length of remains 18 ft. 9 i.—Mast-head 5 feet—Diameter at Cap 10½ inches—Iron Spider Strop fitted with two thimbles each side for Topgallant Rigging.

M. Yard  
Arm.

Topsail  
Sheet  
Blocks.

Fore Yard  
Arm.

F. and Main Topsail  
Parrel.

Main Yard of Fir—entire length 44 ft. 4 i.—Yard Arms each 3 ft. 3 i.—Diameter at slings 11 inches—Topsail Sheet Sheave at Yard Arm fitted in an iron box or casing abaft the yard, and iron plate guards for chain sheets—patent Bow Russes—Iron hoop on the centre of yard for top-sail sheet blocks, which are iron.

Fore Yard entire—length 43 ft. 11 i.—Yard Arm 3 ft.—Diameter 12 inches, of Fir—appears to be not so old as Main Yard—Iron work in the centre of the Yard like the Main. The Yard Arm Sheet Hole is through the yard with an iron plate, and two shouldens, as per margin.

Main Topsail Yard of Fir—entire length 36 ft. 2 i.—Yard Arm 11 ft. 5 i. each—Diameter at Slings 8½ inch—Parrel with wooden checks and iron clamp—a hoop in centre for T. Shackle—Yard Arm Sheave Hole guarded with iron wire.

Fore Topsail Yard of Poon, and apparently nearly a new Spar—Extreme length 35 ft. 6 i.—Yard Arm 2 ft. 5 i. each—Diameter at Slings 9½ inches, fitted exactly like the last.

Spritsail Yard of Fir—Extreme length 36 ft. 3½ i.—Diameter at Slings 9½ inches—apparently had been rigged across the Forecastle.

Fore Stay  
Heart and  
Jibboom  
Saddle.

Jibboom broken off at the Cap, made of a close grained white wood, uncertain of its being Fir—length of remains 14 ft. 6 i.—Diameter 10½ inches—Jibboom Saddle and Fore Stay Heart in one.

All the Yards appear as if they had been primed with a lead colour, and afterwards painted black.

No Coir Yarn has been discovered, but plenty of Manilla Rope.

The following marks on the Canvas and Spars have been found:

Main top lower part,..... M

Main lower Cap, ..... M

Fore Top in two places, ..... M

On a Topsail, JOHN WILLIAM CHAPMAN WHITNEY BOILED.

Both Lower and Topsail Yards are fitted with Iron Jacketstays.

On the Foresail No. 5.

8502

also 1 x x 28

It would appear the Vessel was a Bark, about 300 Tons, for although no part of the Mizzen Mast has been discovered, and her Main Braces led forward, the Topsail Braces led aft. The Vessel evidently was not fitted in this Country, as no particle of Coir was found about the rigging or running gear—but there was some Manilla Rope.

#### SHIPPING INTELLIGENCE.

Extract from the Log of the Barque "Planet."

Wednesday, 7th September, 1842.—At 1 P. M. observed the water on the Starboard bow much discoloured, kept the Ship away and sent a hand aloft to look out, who observed the same in patches as far as the eye could reach, running about W. S. W. and E. N. E. passed over the tail of one patch and had as near as we could suppose, 9 fathoms on a Sandy bottom a quantity of sand fast to the lead when hauled in. The extent of the Shoal appeared to be about 3 miles, Latitude 16° 28' N. Longitude 84° 10' East.

Captain Thompson further states that in the centre of this Shoal there were heavy breakers, the weather had been equally in the forenoon, but was then more moderate, though the breeze was fresh and a swell in consequence. They had no Meridian Observation, but the Longitude was de-

termined and laid down by good sights taken that morning and an excellent Chronometer.

## NOTIFICATION

By THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA.

*Camp Bladour, the 10th January, 1843.*

The Governor General has much satisfaction in publishing the following despatch from Vice Admiral Sir William Parker, K. C. B., and in making known thereby the high estimation in which the Vice Admiral holds the services of the Officers and men of the Navy of India, employed in the late operations on the Coast of China.

The Governor General entirely concurs in the approbation bestowed by the Vice Admiral upon the distinguished conduct of the Officers and men so employed, and in the estimation in which His Excellency holds their services which have so essentially contributed to the successful termination of the war.

*By order of the Right Hon'ble the Governor General of India,*

W. EDWARDS,

*Asst. Secy. to the Govt. of India,  
with the Governor General.*

No. 81.

From Vice Admiral Sir W. PARKER, K. C. B.,

To the Right Honorable Lord ELLENBOROUGH,

*Governor General of India.*

*Cornwallis, at Chusan, 6th November, 1842.*

My Lord,

As every exertion is now making to send to India, the disposable troops and transports, which have been taken up at Calcutta and Madras for the service of the China Expedition, it is my intention also to despatch, as soon as possible, the steam vessels of the Indian Navy, and those belonging to the Honorable East India Company, specified in the margin, which at present remain under my command.

*Steam vessels of the Indian Navy.*

*Akbar, Captain Pepper.*

*Merrim, Commander Powell.*

*Medusa, Lieutenant H. Hewitt.*

*Steam vessels of the Hon'ble East India Company.*

*Proserpine, Commander Hough, R. N.*

*Philo, Lieutenant John Tudor, R. N.*

*Phlegethon, Lieutenant McCleverty, R. N.*

*Nemesia, Lieutenant Hall, R. N.*

*Queen, Mr. W. Warden, acting Master R. N.*

I cannot, however, make this communication to your Lordship unaccompanied by my unqualified commendation of the creditable, zealous, and able manner in which the whole of these vessels, as well as the *Sesostris*, *Auckland*, *Tenasserim*, and *Hooghly*, (which are already gone,) have been conducted; and I beg to recommend their several Commanders and Officers generally, to the favorable notice and consideration of your Lordship and the Indian Government, feeling that they have well merited any reward which can be bestowed on them.

The enclosed copy of a letter which I have addressed to the Secretary of the Admiralty, will also convey to your Lordship the sense which I entertain of the important services rendered to the expeditionary forces in this country by the steam vessels. And as it

will be perceived that my particular object in that letter was to draw the attention of the Lords Commissioners of the Admiralty, to the peculiar position of the four Officers of the

Royal Navy, who respectively command the *Nemesis*, *Phlegethon*, *Pluto* and *Proserpine*, with the hope of obtaining for them promotion in their own profession, which will perhaps be their dearest reward; I wish to be understood that I hold in equal estimation the services of Commander Ormsby, of the *Sesostris*, who has conspicuously shared in the success of every hostile operation in which the squadron has been engaged since I assumed the Naval Command, and of Commanders Ethersey and Powell, and Lieutenant Hewitt, also of the Indian Navy, (who came subsequently at different periods under my command) as well as of Mr. Warden, in command of the *Queen*, and Mr. Wall of the *Tenasserim*; the former of whom has largely and most creditably participated in the naval operations in China from the commencement.

I have, &c.,

No. 225.

From Vice Admiral Sir W. PARKER, K. C. B.,

To the Secretary of the Admiralty.

Cornwallis, off the Amherst Rocks, 16th Oct. 1842.

SIR,

In my letter of the 29th of August, No. 182, I did myself the honor of reporting, for the information of the Lords Commissioners of the Admiralty, the commendable conduct of the Officers of all ranks and descriptions, who have served under my command, in the late operations of the combined forces in China.

The successful result which has attended Her Majesty's arms, has been throughout so materially aided by the unwearied and able exertions of the steam vessels of the Indian Navy, and those of the Honorable East India Company, that I flatter myself I shall stand excused for bringing the anomalous position of the meritorious Officers belonging to Her Majesty's Navy, who have commanded some of these latter vessels, under their Lordships' special and favorable consideration.

Lieutenant Hall, when he held the rank of Master in Her Majesty's Navy, was permitted by their Lordships to take command of the *Nemesis*, on her being fitted out by the Honorable East India Company, and he has borne a distinguished share in almost every naval operation from the commencement in the Canton river in January 1841, to the close at Nanking. This vessel has been kept ready for service at all times, mainly on her own resources, with admirable perseverance, and she has been managed throughout with consummate skill. For his gallantry and activity, Lieutenant Hall was promoted to his present rank by their Lordships on the 8th June 1841, and his subsequent exertions have well entitled him to any further advancement they may be disposed to bestow upon him.

Lieutenant McCleverty, who has command of the *Phlegethon*, under similar circumstances, is an old and valuable Officer, and has conducted his vessel with equal skill, zeal and gallantry. He did not reach this station until the operations in the Canton river were over, and about the period that I assumed the command of the naval forces, since which time, it is impossible to make any distinction between the services of the *Phlegethon* and *Nemesis*, for they have been equally conspicuous and deserving on every occasion, and the advantages derived by the combined forces from the activity of these two little vessels, is scarcely to be described.

The *Pluto* did not join until we were in possession of Chapoo, but she has fully participated in all the operations in the Yang-tze-Keang, and it is due to Lieutenant Tudor to state, that his gallantry in the attack of Woosung, and indefatigable exertions on every point of service, places him quite on a par with his brother Officers whom I have already noticed, as far as their comparative length of service in these seas can be estimated.

Commander Hough, commanding the *Proserpine*, has also given me the highest satisfaction by his unremitting zeal and attention; but unfortunately he did not join the squadron until the hostile operations of the naval branch of the Expedition were nearly over.

I will but add, that the services of the steam vessels generally, have been not less beneficial in the descent of the Yang-tze-Keang than in the advance up it. And it is to their exertions that we owe the safety of some of the ships of war, and several of the transports.

Having thus fulfilled a part of my duty in transmitting this representation for the consideration of their Lordships, I leave the cases of these Officers in their hands, and

I have, &c.

WEDNESDAY, JANUARY 25, 1843.

FORT WILLIAM,  
SECRET DEPARTMENT, 24TH JANUARY, 1843.  
NOTIFICATION

BY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA

*Camp Peralzapore, the 31st December, 1842.*

This day the troops which have returned from Cabool, and the army of reserve, were reviewed by His Excellency the Commander in Chief.

The whole force afterwards passed in column before the Governor General.

The Governor General was accompanied by the Koonwur Pertaub Singh, son of His Highness the Maharajah of Lahore; by Rajah Dhan Singh, the Minister of Lahore, and the other chiefs of the Punjab, now on a mission from the Maharajah, as well as by the Rajah of Jheend, and other chiefs of the protected Sikh states.

The force reviewed, consisted of nine battalions of European, and nineteen battalions of native infantry, (including Broadfoot's sappers); of two regiments of European and nine of native cavalry, besides detachment, and of seventeen batteries of artillery, comprising 102 guns.

Four battalions of infantry remained in camp.

The regiment of Kelat-i-Ghilzie carried for the first time, the colours presented to it by the Governor General, already inscribed with the words,

"Kelat-i-Ghilzie,"

"Candahar,"

"Ghuznee," and

"Cabool,"

in commemoration of the services, which have justly obtained for it the honor of being permanently attached to the Bengal army.

The troops were all in the finest order, and the horses in good condition for any service.

After the review, the Europeans received double rations, and thirty thousand seers of their favorite *mektaye* were distributed to the native regiments.

Major General Sir Charles Napier, lately reviewed the troops under his command, at Sukkur.

The Major General has concentrated at that place, and in its immediate vicinity, twelve regiments of infantry; two regiments of cavalry, and an ample force of artillery.

One European and two native regiments occupy Kurrachee.

Two steam vessels, transferred from the Euphrates, have been already directed to the Indus, where the flotilla will now comprise six steam vessels.

Tranquillity is restored in Bundelkund.

A force of 14,000 men, well composed and amply provided with artillery, to which the Maharajah Scindiah has added, from his own army, three regiments of infantry and one of cavalry, with guns, which His Highness has placed under the command of a British Officer, will effectually preserve the tranquillity so established in Bundelkund, and extend it to Saugor and the Nerbudda.

In both districts the principal chiefs zealously co-operate with the British Officers in the pursuit of plunderers, and for the apprehension of all who have disturbed the peace of the country.

Two regiments of European and four of native infantry, which formed part of the force lately employed in the operations against China, have been rendered immediately disposable by the conclusion of a peace, upon our own terms, of which the Chinese Government evinces every disposition fairly to execute the conditions; and the native regiments are already on their return to India.

CAMP OOGAIKEE, 11th January, 1843.

The following arrangements are authorized for the purpose of expediting the adjustment of the Pay Accounts of the Troops which served beyond the Indus, as well as of those which composed the Army of Reserve.

2. Captain Bygrave, Presidency Paymaster, who will proceed by Dawk to Calcutta, will adjust and settle the Accounts of all the Troops which have served beyond the Indus, with the exception of those belonging to the Force of the late Shah Shooja, and to the Army under Major General Pollock.

3. Captain H. Johnson, Paymaster and Commissariat Officer, with the late Shah Shoojah's Force, having been restored to his place in the Commissariat Department, and posted to Kussowlee, will adjust and settle at that Station, all Abstracts and Accounts connected with that Force, and those concerned are directed to send their Abstracts and Claims to his address at that Station.

4. Captain Riddell, Deputy Paymaster to Major General Pollock's Force, will proceed to Meerut, and afford Captain Blois all the aid in his power in the settlement on Abstract with the Troops of that Army.

5. Lieutenant Phillott, Deputy Paymaster, Army of Reserve, will proceed to Kurnaul, where he will adjust and settle all Accounts connected with the Pay and Allowances of that Force.

6. That no avoidable delay may take place in the settlement or audit of the Affghanistan Accounts, the Hon'ble the President in Council will be solicited to afford to the Military Auditor General and to Capt. Bygrave, such additional aid of any description as to His Honor in Council may appear to be necessary.

OVERLAND LETTERS AND POSTAGE.

It is hereby notified for general information—

*First.*—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by the Overland Mails, and except those specially marked via "Falmouth," will be sent through France, and thus be subject to the heavier rate of postage.

*Second.*—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets for England. Letters, &c. for places lying between Bombay and Marseilles, will be despatched in separate Packets.

*Third.*—Letters for the United Kingdom of Great Britain, weighing less than a quarter of an ounce, and passing through France, are charged single postage, which by that route amounts to 2s. 8d. By the Falmouth route, Letters of half an ounce in weight, are subject to single postage only, which by that route, has now been reduced to 1s.

Newspapers, if sent via Falmouth, are free of postage; but if transmitted by the way of Marseilles, they are charged 2d. each.

Secretary.  
Fort William, }  
the 20th Dec. 1842 }

### SHIPPING INTELLIGENCE.

Extract from the Log of the Barque "Planet."

Wednesday, 7th September, 1842.—At 1 P.M. observed the water on the Starboard bow much discoloured, kept the Ship away and sent a hand aloft to look out, who observed the same in patches as far as the eye could reach, running about W. S. W. and E. N. E. passed over the tail of one patch and had as near as we could suppose, 12 fathoms on a Sandy bottom a quantity of sand fast to the lead when hauled in. The extent of the Shoal appeared to be about 3 miles, Latitude 16° 23' N. Longitude 84° 10' East.

Captain Thompson, further states that in the centre of this Shoal there were heavy breakers, the weather had been squally in the forenoon, but was then more moderate, though the breeze was fresh and a swell in consequence. They had no Meridian Observation, but the Longitude was determined and laid down by good sights taken that morning and an excellent Chronometer.

(True Extract.)  
C. B. GREENLAW, Secretary.

### Notice of a Floating Light stationed at the entrance of the Bombay Harbour.

The following Notice of a Floating Light stationed in the Fair Channel into Bombay Harbour, is published for general information.

By Order of the Marine Board,

C. B. GREENLAW, Secy.

Fort William, }  
The 19th January, 1843. }

# NOTICE

Is hereby given, that a Floating Light is stationed in the Fair Channel into Bombay Harbour about  $\frac{1}{2}$  of a mile to the S. W. by S. from the Fair Way Buoy, in about 9 fathoms at high water, and 7 fathoms at low spring tides, with the following bearings and distances.

Flag Staff on Malabar Point, N.  $5^{\circ} 46''$  E. distance 6. 90 Nautic. Miles.

The Light House on Colaba, N.  $21^{\circ} 34''$  E. distant 4. 56 Nautic. Miles.

The Fair Way Buoy N. E. by N. distant  $\frac{1}{2}$  of a mile.

The Floating Light at the Sunken Rock, N.  $38^{\circ} 50''$  E. distant 4. 63 miles.

Kennedy Island, S.  $14^{\circ} 15''$  E. distant 7. 43 miles.

The Point of the S. W. Prong in 6 fathoms foul ground bears North about 2 miles.

The Middle of Paull Shoal, E. S. E. 2 miles.

When approaching the Harbour, if the Floating Light Vessel is seen bearing on any point from N. by E. round to the Eastward as far as S. E. by S. a Ship might steer directly for it, and when up with the Light Vessel, should steer from her N. E. Easterly, so as to pass about  $\frac{1}{2}$  of a mile to the Eastward of the other Light Vessel, which is moored about a quarter of a mile to the Southward of the Sunken Rock. After rounding the Rock Light Vessel, you may steer more Northerly, and if it be at night, should anchor about 1 mile to the N. E. by N. from it, where the water will be smooth. The South point of the Middle Ground Shoal, bears N. N. E., distant 2 miles from the Rock Light Vessel.

Both Light Vessels are painted Red, each carrying a Ball on the Light Mast, and during daylight they hoist a Red Flag when a sail is in sight.

The Outer Floating Light burns a Blue Light at the end of each hour during the night, and displays a Torch at the half hours.

The Flood Tide comes in from S. W. and Ebb from the N. E. It is High Water at 12 hours on full and change of the Moon.

D. ROSS,

Master Attendant.

Bombay, }  
24th December, 1842. }

NOTE.—The Floating Light was tried during the last Monsoon and rode well, but in the event of her breaking adrift, the Fair Way Buoy is continued at its station.

# NOTICE

The following Directions for Vessels entering the Moulmein River, prepared by Lieut. W. Fell, I. N., are published for general information.

By order of the Marine Board,

C. B. GREENLAW,

Secretary.

Fort William, }  
The 12th Dec., 1842. }

## DIRECTIONS

For Vessels entering the Moulmein River.

A Vessel coming from the southward on sighting the fair way Buoy, which is a Black Buoy with two white rings, painted on the upper part of it, and placed in  $4\frac{1}{2}$  fathoms water, on a patch of broken ground, of about 250 yards in extent, from which the present Reef Buoy bears N.  $40^{\circ}$  East, distant one and a half miles. A white Pagoda on the summit of the Eastern Hill, on the South end of Biloo Island, N.  $10^{\circ}$  East Amherst large Pagoda near the Flag Staff S.  $84^{\circ}$  East, a conspicuous tree on the centre of the small Island off Amherst, S.  $61\frac{1}{2}^{\circ}$  East, a Vessel ought to stand direct for this Buoy and passing to the westward of it, you may then with a fair wind steer direct for the Reef Buoy, being careful not to bring it to northward of North East so as to avoid the Sunken Rocks and Foul Ground, extending from the Reef of Rocks off Amherst. The Reef Buoy is a Black Buoy, placed off the N. W. extreme of the Amherst or Queekini Reef in 7 fathoms, from which the white Pagoda on Biloo Island, bears N.  $5^{\circ}$  East, Amherst large Pagoda S.  $54^{\circ}$  East the conspicuous tree on the Island off Amherst S.  $29^{\circ}$  East, passing this Buoy at one hundred and fifty or two hundred yards distance you may then stand in direct for the middle ground Buoy, which is also black, and situated on a Sunken Rock, in  $\frac{1}{2}$  of a fathom at low water, with deep water on all sides of it, and bears from the Reef Buoy N.  $84^{\circ}$  East, distant  $1\frac{1}{2}$  miles, carrying from 7 to 4 fathoms at low water, passing this Buoy to the northward you may then stand on to the eastward, and Anchor in  $3\frac{1}{2}$  or 4 fathoms, when the conspicuous tree on the centre of Amherst Island is in one with Amherst Point, which forms a Bluff close to the large Pagoda.

A Vessel getting at all to the northward, when outside the Reef Buoy, will avoid the S. W. extreme of the Goodwin Sand by keeping Amherst large Pagoda in one with the Reef Buoy, or open to the southward of it.

When inside the Reef Buoy the middle ground Buoy bearing E. 7° S. will take a Vessel clear of the South extreme of the Sand on the North side of the Channel, but it ought not to be brought to bear at all to the Sd. It is high water on full and change at the Reef Buoy at 2 hours.

Ambrosia large Pagoda is in { Latitude 16° 04' 45" N.  
Longitude 97° 35' 00" E.

N. B.—In coming into the River keep all Black Buoys on your right hand and all Red on your left hand.

### NOTICE

*Touching the Pilot Station for the River Hooghly during the S. W. Monsoon of the Year 1843.*

NOTICE is hereby given, that the same causes existing which during last S. W. Monsoon rendered necessary the removal of the Pilot Station from off Point Palmyras to a position 6 or 7 miles S. W. of the outer Floating Light, and in from 10 to 20 fathoms water, this latter Station will be continued during the next S. W. Monsoon, viz. from 15th March to the 15th September.

During the last S. W. Monsoon, no difficulty would appear to have been experienced by Vessels passing from False Point Light House to the New Station, nor can any be felt, if common attention be paid to the lead and to the following Directions prepared by Captain Lloyd, late Officiating Marine Surveyor General, after a careful Survey of the ground between the two Points.

"False Point Light House is in Latitude 20° 19 1/2' N. and Longitude 86° 47' E., and that of the South Channel Buoy in Latitude 20° 59' N. and Longitude 88° 4' E., and bears from the former N. 61 E. true N. E. by E. 1/4 E. by Compass distant 83 miles, and is laid in 12 fathoms."

"A Bank of Soundings extends from off Point Palmyras, in a direction towards the tail of the Western Sea Reef, and the nature of the bottom (as distinguished from that of the Hooghly deposit which is sand and mud with shining specks,) is a gravelly substance composed of sand shells and small pebbles discharged from the "Kunka," and other Rivers, near Point Palmyras, the lighter material of which being carried further out, is deposited and forms what is called the Pilots' Ridge, which in crossing to the N. Wd. shows a little less water than on either side. In coming from seaward you shoal rather suddenly from 28 to 23 fathoms upon its Eastern Edge. It is composed of a shelly sand or minute gravel of a reddish or rusty brown colour."

"The best guide therefore enable a Vessel to direct her course from False Point to the Vessels at the New Station, will be to run down the Edge of the Pilots' Ridge, which can readily be done by making the Light House and bringing

it to bear about W. S. W. or S. W. by W. distant by computation from 10 to 15 miles then steering to the E. N. E. and having gradually increased the depth of water to 23 fathoms upon the Eastern Edge of the Ridge, regulate the course to keep between it and 27 fathoms, when by attention to the lead and nature of the Soundings, course and distance run from the Light House, it is almost impossible to miss the Pilot Vessels, (if the above limits are kept within) either by getting too far to Windward or falling to Leeward; for the Soundings increase so rapidly to seaward from the proposed New Station, that 28 fathoms will not be more than 3 or 4 miles to the Southward of it and 23 fathoms the same distance to the Westward of it."

"The Soundings to seaward of the Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it."

Vessels approaching the Station during the day are required to shew the usual Signal for a Pilot and by night to give as early and as much warning as possible by firing Guns, burning Blue Lights and by exhibiting two Lights in a vertical position, where best seen, but Commanders are recommended to avoid as much as possible making the Station during the night. To mark the Station one of the Pilot Vessels will shew during the day a large St. George's Jack (white with red cross) at the Main Top Gallant Mast Head and a good Mast Head, Light during the night and will burn a Blue Light and a Maroon alternately every half hour and fire a Gun at 8 P. M. at midnight

\* *The Pilot Vessels are directed when another Vessel is approaching during the night, shew a Light at the Staff end to mark the way they are riding.*

Station Vessels are warned to be careful in avoiding collision by night or by day and in communicating with either of the above Vessels, either at anchor or heave too; and when it is necessary to cross her to pass under the Stern, several instances of serious damage having occurred during the S. W. Monsoon; whereby the outer Floating Light was more than once compelled to leave her Station for repairs to the great inconvenience and risk of Vessels entering and quitting the River.

A Vessel will be stationed off False Point Light House, keeping it according to circumstances W. by S. to N. W. by N., in from 10 to 15 fathoms water.

She will exhibit during the day, when Vessels are in sight, a large Danish Jack at the Main Top Gallant Mast Head (red with white cross) and during the night a good Mast Head Light in the same place and will burn a Blue Light every half hour.

This Vessel will have no Pilot on board and is only intended generally to furnish information touching the Course to the New Station, but particularly to do so Vessels which may be in ignorance of the position of the New Station.

## NOTICE OF A SUNKEN EUROPEAN VESSEL OFF POOREE,

NAME UNKNOWN.

The Marine Board having received information on the 27th of October last, from Mr. H. C. Hamilton, the Magistrate at Pooree, that a Vessel, believed to be a Barque, had been discovered sunk in deep water off Juggernaath Pagoda, shortly after the heavy gale which occurred about that period, with the sanction of Government, caused every practicable means to be adopted with a view to discover her identity.

She lies in 10 fathoms water stiff mud, distance from the shore 2684 yards, with Juggernaath Tree bearing N. 40° 59' W.

After every possible exertion, all the information obtainable beyond that contained in the following Report from the Master Attendant, describing minutely the Articles saved from her, is as follows:

Mr. Hamilton states under date 20th November, that he thought some portion of the upper Cabin roofs had given way, as he had collected several pieces of a Vessel painted blue and white, evidently from this Vessel, also a part of a Cabin door with the venetians gone. It was painted on one side a stone colour, with bright rose coloured pannels, and on the other buff, picked out with black and green. The remnant of the Main Sail bears the following mark:

**BENSON AND SON,  
LOWER SHADWELL,  
LONDON,**

and by the London Directory it appears that they are Sail-makers at that place. The Yards were black, and the lower Masts white throughout.

By information received from Captain Biden, Master Attendant at Madras, it appears that the "Acasta," a Barque belonging to London, left Elnore on the 22d September last, laden with Salt for Calcutta, and has not been since heard of. The attention therefore of parties interested in her is more particularly drawn to this Advertisement.

### DESCRIPTION OF ARTICLES LYING AT THE BANKSHALL, RECOVERED FROM A VESSEL SUNK IN 10 FATHOMS WATER OFF THE TOWN OF POOREE.

F. and M. Truss and  
Catapin legs.

Head of Main Mast of Fir—broken off just below the Spider hoop—length of remains 17 ft. 5 i.—Mast-head 9 ft. 10 i.—Diameter 16 inches—painted white—Hounds secured with two iron hoops, upper one made with a hinge on aft side and screw-bolt on the other for the Patent Truss; on each side of the Hoop three Chain Catapin legs.

Fore Mast entire, of Fir—length 60 ft. 11 i.—Mast-head 9 ft. 11 i.—Diameter at the Partners 16 inches—From heel to partners looks as if it had been painted red—above the partners for 4 ft. 9 i.—painted a dark green—above that painted white at partners—Eight flat pieces of iron fixed round the Mast—a wooden rack round the Mast for belaying-pins, secured by an iron band—no mark on the Mast indicating a lower deck.

Bowsprit of Fir, broken off just inside the knight heads—length of remains 23 feet—Diameter 19 inches—two iron hoops—outer one fitted underneath for a Chain Bobstay to be set up on; the inner Hoop for a Bobstay and Chain Bowsprit shrouds.

Main Topmast entire—extreme length 25 ft. 10 i.—Mast-head 4 ft 7½ i.—Diameter at Cap 10½ inches—Sheave hole cut through the Mast—Iron Spider Strop with two thimbles on each side for Topgallant Rigging.

Fore Topmast of Fir, broken off at Cap—length of remains 18 ft. 9 i.—Mast-head 5 feet—Diameter at Cap 10½ inches—Iron Spider Strop fitted with two thimbles each side for Topgallant Rigging.

M. Yard

Arm.

Topsail  
Sheet  
Blocks.

Main Yard of Fir—entire length 44 ft. 4 i.—Yard Arms each 11 ft. 3 i.—Diameter at slings 11 inches—Topsail Sheet Sheave at Yard Arm fitted in an iron box or casing abaft the yard, and iron plate guards for chain sheet,—patent Bow Trusses—Iron hoop on the centre of yard for top-sail sheet blocks, which are iron.

Fore Yard  
Arm.

Fore Yard entire—length 43 ft. 11 i.—Yard Arm 3 f.—Diameter 12 inches, of Fir—appears to be not so old as Main Yard—Iron work in the centre of the Yard like the Main. The Yard Arm Sheet Hole is through the yard with an iron plate, and two shoulders, as per margin.

F. and Main Topsail  
Parrel.

Main Topsail Yard of Fir—entire length 36 ft. 2 i.—Yard Arm 2 ft. 5 i. each—Diameter at Slings 8½ inch—Parrel with wooden checks and iron clump—a hoop in centre for T. Shackle—Yard Arm Sheave Hole guarded with iron wire.

Fore Topsail Yard of Poor, and apparently nearly a new Spar—Extreme length 35 ft. 6 i.—Yard Arm 2 ft. 5 i. each—Diameter at Slings 9½ inches, fitted exactly like the last.

Spritsail Yard of Fir—Extreme length 36 ft. 3½ i.—Diameter at Slings 5½ inches—apparently had been rigged across the Forecastle.

Fore Stay  
Heart and  
Jibboom  
Saddle.

Jibboom broken off at the Cap, made of a close grained white wood, uncertain of its being Fir—length of remains 14 ft. 6 i.—Diameter 10½ inches—Jibboom Saddle and Fore Stay Heart in one.

All the Yards appear as if they had been primed with a lead colour, and afterwards painted black.

No Coir Yarn has been discovered, but plenty of Manilla-Rope.

The following marks on the Canvass and Spars have been found:

Main top lower part,..... M

Main lower Cap, ..... M

Fore Top in two places, ..... M

On a Topsail, JOHN WILLIAM CHAPMAN WHITEBY BOILED.

Both Lower and Topsail Yards are fitted with Iron Jackstays.

On the Foresail No. 5.

8502

MAHONY

A hole

also 1 x x 28

It would appear the Vessel was a Bark, about 300 Tons, for, although no part of the Mizen Mast has been discovered and her Main Braces led forward, the Topsail Braces led aft. The Vessel evidently was not fitted in this Country, as no particle of Coir was found about the rigging or running gear—but there was some Manila Rope.

**FOR SALE**

ONE OF FLIGHT AND ROBSON'S CELEBRATED  
SELF-PERFORMING

**Mechanical Barrel Organs,**

With three stops, and five barrels, acted upon by spring machinery, each barrel playing ten tunes, the whole enclosed in a handsome Spanish mahogany, French polished case, with silk front, and which was built expressly for a Gentleman high in the Civil Service at a cost of Rs. 5,000.

The Organ is a full Military Band which Parties can dance to without the aid of Musician, in addition to the barrels there were two others sent out from London playing the most admired Overtures, Marches, Walzes and Airs from the newest and most popular Operas performed before Her Majesty and Court at the Italian Opera and Buckingham Palace, which unfortunately have been returned to England during the absence of the Consignees, but which can be obtained by writing to Flight and Robson at a cost of £20 to £30.

Price Rs. 3,000 *Cash*, but offers are invited.

**LOST,**

SECOND Half of a Bank of Bengal Note, No. 16970, for Co's Rs. 100, the property of Nasceeruddeen, the payment of which has been stopped at the Bank.

**BATHGATE & CO'S CASTOR OIL,**

EXPRESSED from the Castor Seeds, of this season's growth and treated with great care, can be supplied either whole or refined. The improved filtering apparatus recently imported from England by Bathgate and Co. gives the Oil a taste and smell, which may be had in bottles of all sizes.
